

## 5 Star Enhanced Member – Point Based System

Each Member is required to maintain a record sheet of any points accrued and have the advisor, the president, or the membership officer sign off during the activity or event. You must also sign in at each event or activity to be credited for the points, whenever there is a sign in sheet available. Both the member and chapter will keep records on accrued points for verification purposes.

In order to achieve your star level you must accumulate the following amount of points throughout your time as an active member in the Alpha Mu Tau Chapter.

### Star Levels

Category B (Volunteering) – 80 Points per Year

Category C (Leadership) – 30 Points per Year

### **Continuation of plan**

The plan will start at your induction date and run for one year. After that time, you will start over on the 5-Star Enhanced member plan. At the expiration of your year, you may carry over up to 40 points if you have achieved at least the two star level. In order for points to carry over you must receive a stamp from one of the officers for the points to stay in effect for the following year. It is your responsibility to maintain and keep track of your records of points.

### **Achieving a Star Level**

Each time you complete a star level you must notify the president, membership officer or the advisor. In addition, you must submit your signed form and have it verified prior to receiving your award for that level. If you fail to submit after you have completed each star level you will forfeit the award for that star level. Example: You have completed one star level with 20 points and decide not to turn it in until you have reached your second star then you will not receive your one star award only your two star award.

This is done to avoid overlaps of awards and ensures our ability to track what has been awarded for recognition.
